

## Optical Diffusers

**Custom-Designed Diffusers Direct Light Where You Want It!**

---

**Your single source for custom design, prototyping  
and manufacturing.**

---

### **Advantages Include:**

- **Cost-Effective Manufacturing:** Proprietary replication material and processing technology is scalable for volume manufacturing.
- **Optical Design:** Custom-designed low-scatter homogenizers, beam shapers, and controlled-angle optical diffusers.
- **Development Flexibility:** Proprietary replication technology allows for unique state-of-the-art optical diffuser solutions.
- **Repeatable Performance:** Replication provides consistent part-to-part performance throughout your product's life cycle.
