

Wafer-Level Optics

Custom Wafer-Level Microlens Arrays and More!

**Your single source for custom design, prototyping
and wafer-level manufacturing.**

Advantages Include:

- ***Reliable Supply Chain:*** Consolidate your supply chain. Holographix is your single supplier through the entire product build process, from development to diced components.
- ***Cost-Effective Solution:*** Our manufacturing technology is compatible with 200mm and 300mm diameter wafer processing.
- ***Repeatable Performance:*** The inherent repeatability ensures specifications are maintained, wafer-to-wafer and die-to-die.
- ***Thermally Stable Polymers:*** Suitable for assemblies requiring solder reflow and/or Automotive/Aerospace applications.
